## Independent Auditor's Report

To the Board of Directors  
**American Savings Life Insurance Company:**

### ***Report on the Statutory Financial Statements***

We have audited the accompanying statutory financial statements of **American Savings Life Insurance Company**, which comprise the statutory statements of admitted assets, liabilities, and capital and surplus as of December 31, 2014, and the related statutory statements of operations, changes in capital and surplus, and cash flow for the year then ended, and the related notes to the statutory financial statements.

### ***Management's Responsibility for the Statutory Financial Statements***

Management is responsible for the preparation and fair presentation of these statutory financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of statutory financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these statutory financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statutory financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statutory financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the statutory financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the statutory financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statutory financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 2 of the statutory financial statements, the **American Savings Life Insurance Company** prepared these statutory financial statements using accounting practices prescribed or permitted by the Insurance Department of the State of Arizona, which is a basis of accounting other than U.S. generally accepted accounting principles.

The effects on the statutory financial statements of the variances between the statutory basis of accounting described in Note 2 and U.S. generally accepted accounting principles, although not reasonably determinable, are presumed to be material.

***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the statutory financial statements referred to above do not present fairly, in accordance with U.S. generally accepted accounting principles, the financial position of **American Savings Life Insurance Company** as of December 31, 2014, or the results of operations or cash flow for the year then ended.

***Opinion on Regulatory Basis of Accounting***

In our opinion, the 2014 statutory financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities, and capital and surplus of **American Savings Life Insurance Company** as of December 31, 2014, and the results of its operations and its cash flow for the year then ended, on the basis of accounting described in Note 2.

***Prior Period Statutory Financial Statements***

The statutory financial statements of **American Savings Life Insurance Company** as of December 31, 2013, were audited by other auditors whose report dated February 25, 2014, expressed an unmodified opinion on those statements.

***Basis of Accounting***

We draw attention to Note 2 of the statutory financial statements, which describes the basis of accounting. As described in Note 2 to the statutory financial statements, the statutory financial statements are prepared by **American Savings Life Insurance Company** on the basis of the financial reporting provisions prescribed or permitted by the Insurance Department of the State of Arizona, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the NAIC and the Insurance Department of the State of Arizona. Our opinion is not modified with respect to this matter.

AMERICAN SAVINGS LIFE INSURANCE COMPANY  
**NOTES TO THE STATUTORY FINANCIAL STATEMENTS**  
FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

---

**Note 1 – Organization**

American Savings Life Insurance Company (the Company) is a registered capital stock life, health and accident insurance company authorized to conduct business in the states of Arizona and Utah. The Company is currently engaged in life and disability insurance business. While it is customary in the insurance industry for a significant portion of income to be derived from investments in mortgage loans, securities and bank deposits, a majority of the Company's income is derived from such sources.

*Company Reorganization*

On February 15, 2007, American Savings Life Insurance Company purchased 325,000 shares as 100% ownership of the newly formed ASL Financial Group, Inc. for \$325,000 in cash and real estate mortgage loans. ASL Financial Group then purchased 300,000 shares as 100% ownership in the newly formed American Life Financial Corporation for \$300,000 in cash and real estate mortgage loans. American Life Financial Corporation has been formed to increase the Company's mortgage investing opportunities and ASL Financial Group is a holding company, which at some future date could serve as a holding company for both American Saving Life Insurance Company as well as American Life Financial Corporation

**Note 2 – Summary of Significant Accounting Policies**

The significant accounting policies applicable to the Company's statutory financial statements are summarized below:

***Basis of Presentation***

The accompanying statutory financial statements have been prepared in conformity with the accounting and valuation practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and/or the Arizona Department of Insurance. The principal differences between statutory basis financial statements and those prepared on a U.S. generally accepted accounting principles (U.S. GAAP) basis as they affect the Company, are that for statutory purposes:

- Investments in real estate are reported net of related obligations, if any, rather than on a gross basis. Changes between cost and admitted asset investment amounts are credited or charged directly to unassigned surplus rather than to a separate surplus account;
- Valuation allowances, if necessary, are established for mortgage loans based on the difference between the unpaid loan balance and the estimated fair value of the underlying real estate when such loans are determined to be in default as to the scheduled payments. Under U.S. GAAP, valuation allowances would be established when the Company determined it is probable that it will be unable to collect all amounts (both principal and interest) due according to the contractual terms of the loan agreement. Such allowances are based on the present value of expected future cash flows discounted at the loan's effective interest rate or, if foreclosure is probable, on the estimated fair value of the underlying real estate, less estimated cost to sell;

AMERICAN SAVINGS LIFE INSURANCE COMPANY  
**NOTES TO THE STATUTORY FINANCIAL STATEMENTS**  
FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

---

**Note 2 – Summary of Significant Accounting Policies (continued)**

- Investments in bonds are reported at amortized cost or fair value based on their National Association of Insurance Commissioners (NAIC) rating as described below in valuation of investments, unrealized gains or losses are credited or charged directly to surplus; for U.S GAAP, such fixed maturity investments would be designated at purchase as held-to-maturity, trading, or available-for-sale. Held-to-maturity fixed investments would be reported at amortized cost, and the remaining fixed maturity investments would be reported at fair value with unrealized holding gains and losses reported in operations for those designated as trading and as a separate component of surplus for those designated as available-for-sale;
- Investments in 100% owned subsidiary companies are not filed with the Securities Valuation Office so they are considered non-admitted and therefore not reported on the statutory basis;
- Certain assets designated as “nonadmitted,” principally furniture and equipment, agents’ debit balances, and other assets not specifically identified as an admitted asset within the National Association of Insurance Commissioners’ (NAIC) Accounting Practices and Procedures manual (NAIC SAP) are excluded from the accompanying statement of admitted assets, liabilities and stockholders’ surplus and are charged directly to unassigned surplus. Under U.S. GAAP, such assets are included in the balance sheet;
- Policy acquisition costs incurred in connection with acquiring new business are charged to current operations rather than being deferred and amortized over the premium paying period of the policy;
- Deferred tax assets are limited to 1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse by the end of the subsequent calendar year, subject to a valuation allowance for deferred tax assets not realizable, plus 2) the lesser of the remaining gross deferred tax assets expected to be realized within one to three years of the balance sheet date or 15% of stockholders’ surplus excluding any net deferred tax assets, EDP equipment and operating software, plus 3) the amount of remaining gross deferred tax assets that can be offset against existing gross deferred tax liabilities. The remaining deferred tax assets are nonadmitted. Deferred taxes do not include amounts for state income taxes. Under U.S. GAAP, state income taxes are included in the computation of deferred taxes, a deferred tax asset is recorded for the amount of gross deferred tax assets expected to be realized in future years, and a valuation allowance is established for deferred tax assets not realizable;
- A liability for guaranty fund and other assessments (net of certain offsets depending on state rules) is accrued after insolvency has occurred regardless of whether the assessment is based on premiums written before or after the insolvency. Under U.S. GAAP, the assessment recognized is typically accrued when premiums are written because the assessment generally is based on prospective premium writings;
- Cash and short-term investments in the statements of cash flow represent cash balances and investments with initial maturities of one year or less. Under U.S. GAAP, the corresponding caption of cash and cash equivalents includes cash balances and investments with initial maturities of three months or less;

**Note 2 – Summary of Significant Accounting Policies (continued)**

- Interest rate related realized capital gains (net of losses) are reported as a liability (Interest Maintenance Reserve) and amortized to the maturity date of the instrument sold or called. Under U.S. GAAP, the realized capital gains (net of losses) are recorded in the income statement in the year incurred instead of being amortized over the remaining life of the instrument sold or called;
- An Asset Valuation Reserve is set up to establish a reserve to offset potential credit-related investment losses on all invested asset categories. Under U.S. GAAP such losses are recognized in the income statement when incurred;
- Policy reserves are based on statutory mortality and interest requirements and without consideration of withdrawals, whereas U.S. GAAP reserves are based on Company experience for mortality, interest and withdrawals;
- On a statutory basis, the Company does not report comprehensive income, as required by FASB codification *ASC 220, Comprehensive Income*;

The effects of the foregoing variances from U.S. GAAP on the accompanying statutory basis financial statements have not been determined, but are presumed to be material.

The Insurance Department of the State of Arizona recognizes only statutory accounting practices prescribed or permitted by the State of Arizona for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Arizona Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Arizona.

***Cash and Cash Equivalents***

The Company considers all highly liquid investments with a maturity of one year or less at the time of purchase to be cash equivalents.

***Restricted Securities***

In accordance with the State of Arizona Insurance Regulations, long-term bonds with an aggregate value of \$548,940 and \$557,677 in 2014 and 2013, respectively, were assigned, as a security deposit, for the benefit of the Arizona State Treasurer.

***Investments***

Bonds, which management generally intends to hold until maturity (unless market conditions warrant the realization of capital appreciation to maximize overall yields), are carried at amortized cost. Common stock and mutual funds are generally required to be reported at the market value. Mortgage loans are carried at the aggregate unpaid balance, real estate, which consists of land, is carried at lower of cost or market less accumulated depreciation. Investments in partnership interest are carried at cost less distributions received.

***Valuations of Investments***

Investments are stated at valuation rates prescribed by, or deemed acceptable to, the NAIC. Bonds not backed by other loans are stated at amortized cost using the interest method, and equity security values approximate fair values, unless otherwise prescribed by the NAIC. Under NAIC guidelines, when market value rates are not available for bonds, fair value rates are determined by the Company. Realized gains or losses on the sale of bonds are determined based on the specific amortized cost of the investments sold and are included in net income. Realized gains or losses on the sale of equity securities are based on the specific-identification method and are included in net income. Unrealized gains and losses from revaluation of equity securities are reflected in stockholders' surplus. Mortgage loans on real estate, all of which are first liens, real estate contracts for sale and policy loans, are stated at the aggregate unpaid principal balances thereon for the years December 31, 2014 and 2013, respectively. The Company reviews its investment portfolio for reductions in fair value below cost that, in the opinion of the Company, represent a permanent or other-than temporary impairment (OTTI). Declines in fair value of investments deemed to be OTTI or permanent are accounted for as a realized loss. During the years ended December 31, 2014 and 2013, the Company had no investments that were considered OTTI.

***Furniture and Equipment***

The Company has a policy of expensing all data processing and furniture and equipment related costs that are within the annual limits as established by IRC Section 179 income tax deduction. Maintenance and repairs that do not materially extend the useful lives are charged to earnings as incurred.

Depreciation of data processing equipment and furniture and fixtures is provided over the estimated useful lives of the assets on the straight-line method. The useful lives for data processing equipment are three years. The useful lives for furniture and fixtures are seven to ten years. Depreciation expense for electronic data processing equipment and furniture and fixtures for the years ended December 31, 2014 and 2013 totaled \$3,286 and \$7,078, respectively.

***Aggregate Policy Reserves***

Unless specifically required by contract, the Company waives deferred fractional premiums subsequent to the death of an insured. Fractional premiums paid beyond the date of death are refunded only when paid in advance beyond a policy anniversary. No surrender value is promised in excess of the reserve as legally computed. Substandard policies are valued at the equal reserve for the rated age (an age greater than the actual age) or where substandard extra premium is required, at the legal reserve plus one-half the annual substandard premium. No policies have a gross premium less than required net premiums. Tabular interest, tabular less actual reserves released, tabular cost and tabular interest on fund not involving life contingencies are determined by formulas outlined in the annual statement instructions. For the determination of tabular interest on funds not involving life for each valuation rate of interest, the tabular interest is calculated as one hundredth of the product of such valuation rate of interest times the mean of the amount of funds subject to such valuation rate of interest held at the beginning and end of the year of valuation.

 FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

**Note 2 – Summary of Significant Accounting Policies (continued)**

***Income Taxes***

During the year ended December 31, 2014, the Company adopted SSAP 101, *Income Taxes*, and began accounting for deferred income taxes. Please see Note 9 for additional information.

***Basis of Premium Revenue Recognition***

Premiums on life contracts are recognized as revenue when due on an annualized premium basis. Premiums on deferred annuities are recognized as revenue when collected in accordance with *Statements of Statutory Accounting Principles No. 50 – Classifications and Definitions of Contracts in Force*.

Deferred and uncollected life insurance premiums as of December 31 were as follows:

Type	2014	
	Gross	Net of Loading
Ordinary new business	\$ 977	\$ 819
Ordinary renewal	13,551	10,865
Totals	\$ 14,528	\$ 11,684

  

Type	2013	
	Gross	Net of Loading
Ordinary new business	\$ 414	\$ 323
Ordinary renewal	14,606	11,685
Totals	\$ 15,020	\$ 12,008

***Policy Claims Pending***

The liability for policy claims is based on estimates of the costs on individual claims reported plus estimated claims incurred but unreported prior to December 31, 2014.

***Reinsurance***

The Company had no agreements with nonaffiliated reinsurers or reinsured policies during the period covered by this report.

***Estimates***

The preparation of these statutory financial statements in conformity with the accounting and valuation practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and/or the Arizona Department of Insurance requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and contingent assets and liabilities at the date of the statutory financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Note 2 – Summary of Significant Accounting Policies (continued)**

***Concentration of Credit Risk***

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist of temporary cash investments, fixed maturity securities and mortgage loans.

***Reclassifications***

Certain amounts as of December 31, 2013 have been reclassified to conform to the December 31, 2014 presentation.

**Mortgage Loans**

Mortgage loans consist of commercial and consumer loans collateralized by real estate. The Company's lending policies are to loan up to 75% of appraised values at interest rates ranging from 9.0% to 15.99% and terms ranging from 1 to 15 years. The Company has a concentration of mortgage loans in central Arizona.

The Company has a valuation allowance for loans where it is probable that all amounts due will be uncollectable. This allowance is comprised of the recorded value of the loan less the fair value of the collateral and consideration of high risk loans.

The Company defines subprime loans as loans with an interest rate above prime and an initial loan to property value above 50%. The Company does not lend above 65% loan to value using this buffer to reduce exposure to loss due to changes in asset value.

**Real Estate**

In May 2006, the Company entered into a real estate investment joint venture with Boa Sorte, LLC (The Cardon Group) for the purchase of approximately 4,700 acres near Holbrook, AZ. The current cost of this investment is \$986,035. In November 2007, the Company acquired 40 acres near Salome, Arizona as an investment property for a total cost of \$105,285. During 2009, the Company purchased two condos in Phoenix and one in Mesa as investments for a total cost of \$38,519. During 2014, one of the condos in Phoenix with a book value of \$19,756 was sold and in 2013 the other condo in Phoenix with a book value of \$20,454 was sold. These investments are non-admitted assets and therefore, not included with the Company's admitted assets in the accompanying statutory financial statements.

The Company acquired two properties through foreclosure for a total value of \$207,856. During 2014, the Company sold one property acquired through foreclosure, reporting a loss of \$1,091 on the disposal.

**Properties**

Properties occupied by the Company consist of a portion of the building located at 935 E. Main Street, Mesa AZ. The cost of the building and improvements is depreciated over the estimated useful life of the building (39 years). Depreciation is computed on the straight-line method for statutory purposes. In accordance with Statements of *Statutory Accounting Principles No. 40*, properties 50% occupied by the reporting entity, including common areas, will be reported as property occupied by the company.

**Net Investment Income**

Net investment income primarily represents interest and dividends received or accrued on bonds. It also includes amortization of any purchase premium or discount using the interest method, adjusted prospectively for any change in estimated yield-to-maturity. Net investment income is reduced by direct and allocated investment expenses.

The following summarizes the components of net investment income at year end:

**Fair Value Measurement**

Investments are being disclosed utilizing an established framework for measuring fair value, and an established fair value hierarchy which prioritizes valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability, or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income, or cost approach, are used to measure fair value.

The fair value hierarchy prioritizes valuation techniques used to measure fair value into three broad levels:

- **Level 1 investments** use quoted prices in active markets for identical assets the entity has the ability to access.
- **Level 2 investments** use inputs other than quoted prices included within level 1 that are observable for the asset, either directly or indirectly.
- **Level 3 investments** have no observable values for the assets and rely on management's own assumptions that market participants would use in pricing the asset. The entity has no such investments.

The following table presents the entity's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2014:

Investments	Balance 12/31/2013	Additions	Retirements	Transfers	Balance 12/31/2014

**NOTES TO THE STATUTORY FINANCIAL STATEMENTS**  
 FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

**Note 3 – Cash and Investments (continued)**

Management uses a market approach to determine the fair value of mortgage loans and properties held for sale. Loans are adjusted for changes in the market value of the property collateralized based on local market indices. Property held for sale is adjusted to the most recent appraisal preformed. The cost approach is used to determine the fair value of properties occupied by the Company and the property contract loans.

On a quarterly basis, the Company reviews its investment portfolio for securities in an unrealized loss position for other-than-temporary impairment. This review for potential impairment is performed on a specific identification basis and requires significant management judgment related to a number of qualitative and quantitative factors including the severity of the impairment, the duration of the impairment, recent trends and expected market performance. Management believes that the Company's unrealized losses on individual securities at December 31, 2014 and 2013, respectively, represent a temporary decline in market value. The investments summarized below are in an unrealized loss position for which other-than-temporary declines in value have not been recognized:

	<b>Less than 12 Months</b>		
	<b>Cost/Amortized Cost</b>	<b>Unrealized Loss</b>	<b>Fair Value</b>
Bonds	\$ 225,412	\$ (9,871)	\$ 215,541

Totals	\$ 1,688,292	\$ (116,378)	\$ 1,571,914

**Note 4 – Reserve for Life Policies and Contracts**

The Company accrues liabilities for unpaid claims on its life insurance policies, estimated incurred but unrecorded claims and estimated cost of future claims. The reserve reflects the liability for aggregate reserve amounts which, with additions from premiums to be received and with interest compounded annually at an interest assumption between 2.75% and 5.5% are calculated to be sufficient to meet policy obligations as they mature. During the second half of 2009 began to offer fixed rate annuities. The following is the reserves activity during 2014 and 2013 respectively:

	<b>Life Policies and Contracts</b>	<b>Policy and Contract Claims</b>
<b>Reserves, January 1, 2013</b>	\$ 19,239,693	\$ 9,050

**Note 4 – Reserve for Life Policies and Contracts (continued)**

Withdrawal characteristics of deposit liabilities as of December 31, 2014:

<b>Subject to Discretionary Withdrawal - Without Adjustment</b>	<b>Amount</b>	<b>Percent of Total</b>
At book value less current surrender charge of 5% or more	\$ 8,880,718	29.34%
At book value (minimal or no charge or adjustment)	\$ 21,386,523	70.66%
Reconciliation of Total Deposit Fund Liabilities Exhibit 5, Annuities, Total (net)	\$ 23,085,022	
Exhibit of Deposit Contracts, line 14	\$ 7,182,218	

**Note 5 – Guaranteed Investment Contracts**

Guaranteed Interest Contracts are amounts held on behalf of outside parties. Interest is paid yearly at a rate equal to Federal Reserve 6-month CD and is updated each month with a guaranteed minimum rate of 2.00%. Guaranteed interest contracts are held primarily by stockholders of the Company. Contracts owned by stockholders represent 82% and 82% of all contracts at December 31, 2014 and 2013 respectively. Guaranteed investment contracts are considered a level 3 financial instrument under the fair value hierarchy referred to in Note 3.

Management uses a cost approach to report the fair value of these contracts and the amounts are not adjusted based on any additional criteria.

**Note 6 – Capital and Surplus**

State of Arizona insurance regulations require the Company to keep a minimum capital of \$400,000 and a minimum free surplus of \$100,000. At December 31, 2014 and December 31, 2013, the Company had capital amounts of \$926,230 and \$924,657 respectively and free surplus of \$13,608,728 and \$13,778,086, respectively. Free surplus was reduced by the \$6,183,502 and \$5,999,952 cost of treasury stock in 2014 and 2013 respectively. On February 8, 2011 the Board of Directors authorized the purchase of up to 300,000 shares of Company stock at 90% of the most recent equity value. The equity value is prepared monthly using U.S. GAAP standards and adjusted for any accrued dividends payable.

During 2014, treasury stock increased by the purchase of 55,595 shares of capital stock at prices ranging from \$3.24 to \$3.37 per share. During 2013, treasury stock increased by the purchase of 56,391 shares of capital stock at prices ranging from \$3.09 to \$3.26 per share.

The portion of surplus represented or reduced by each item below is as follows:

Unrealized gains or losses	\$ 137,980
Nonadmitted asset values	\$ (2,450,774)
Asset valuation reserve	\$ (1,474,747)

**Note 7 – Participating Insurance Policies**

The allocation of dividends to participating policy owners is based on actuarial mortality rates with consideration for investment yields (which are subject to periodic review), issue ages, policy durations and premium charges. The mortality rates correspond with rates assumed in the calculation of the premium charges. Participating business comprised approximately 24% of total life insurance in force at December 31, 2014, and 25% at December 31, 2013.

**Note 8 – Claims and Contingencies**

The Company has various other legal proceedings and claims pending that are common to its operations. While it is not possible to determine the ultimate outcome of these matters, it is the opinion of management that they will not result in monetary damages that in the aggregate would be material to the business or operations of the Company.

**Note 9 – Related Parties**

There is a significant inter-relationship between policyholders who are also stockholders and members of Company management. Related party transactions involving this group during the years ended December 31, 2014 and 2013, have consisted only of ordinary compensation, expense reimbursement and similar items incurred in the ordinary course of business, except as follows:

- a) A management education loan described in the second paragraph of note 10 below.
- b) Insurance premiums paid by officers and directors totaled 12.6% and 15.1% of total premiums paid and owned 7.5% and 8.1% of total policy face value in 2014 and 2013 respectively.
- c) A director for American Savings Life Insurance Company and also a principal in an investment company in which the Company has entered into investment joint ventures. During 2014, the Company received distributions of \$75,909 from Sugarloaf VII, LLC. During 2013, the Company invested \$880,000 in Window Rock Residential Recovery Fund, L.P., and the Company received \$38,478 from the Sugarloaf VII, LLC and \$169,617 in return of capital, \$3,250 in income and \$393,690 in gain from Superstition Office, LLC which closed the investment. In addition, the Company had investment activity in Boa Sorte, LLC as described in more detail in note 3 under Real Estate.
- d) On December 23, 2014 the Company made mortgage loans on two properties with a director of American Savings Life Insurance Company. The two mortgages had a combined balance of \$390,000, interest rate of 9.99% and a balloon payment term of 30 years.

The Company also entered into various transactions with its wholly owned subsidiary, American Life Financial Corporation (ALF) relating to shared administration costs. During 2014 and 2013, ALF personnel provided operational support to the Company in the amount of \$17,905 and \$26,808 respectively, all of which was reimbursed as of December 31, 2014.

The Company pays the full amount of expenses for office space and other office support expenses. ALF reimburses the Company for a portion of those expenses. The total expenses reimbursed by ALF for office space and other support expenses were \$14,460 for both 2014 and 2013.

**Note 10 – Employee Benefit Plans**

In 1993 the Company began to sponsor a qualified profit sharing plan available to full-time employees who meet the plan's eligibility requirements. The terms of the plan call for annual discretionary contributions by the Company as determined by the board. The plan contribution was \$64,099 for 2014 and \$55,265 for 2013.

The Company has an employee stock benefit compensation plan, available to employees and directors. The terms of the plan allow employees or directors to specify up to 50% of their total compensation for shares of company stock. The allocation price of the stock is 100% of the non-audited generally accepted accounting principles book value for the month preceding enrollment. During 2014, 15,729 shares of American Savings Life Insurance Company common stock were purchased under the plan for a total of \$56,118. The October 2014 enrollment stock price was \$3.642 and \$10,521 of employee and directors compensation had been set aside for stock purchase at December 31, 2014.

A loan for employee educational expenses of \$30,000 was authorized by the board in September 2008. The full amount of the educational loan has been disbursed at December 31, 2014. Under statutory accounting guidelines, loans secured by personal security are non-admitted assets and thus not included with company's admitted assets. The loan is forgiven over 5 years as long as the employee remains with the Company. The remaining balance of \$5,265 is payable if employment is terminated.

**Note 11 – Income Taxes**

The Company has an effective income tax rate substantially different from the statutory rate applied to net income for the years ended December 31, 2014 and 2013. This difference is due to the qualification of the Company under Internal Revenue Code Section 806(a) for the small life insurance company deduction on its federal income tax return; a deduction that is not recognized on the statutory basis financial statements.

The following is a summary of the differences between statutory pre-tax net income and taxable income:

	<b><u>2014</u></b>
Statutory pre-tax net income	\$ 1,779,786
Dividends received deduction	(7,724)

**Note 11 – Income Taxes (continued)**

**Deferred Tax (continued)**

The ratio percentage and the amount of adjusted capital and surplus used to determine the recovery period and threshold limitation amounts for the 2014 admissibility test was 1100% and \$15,904,603 for the year ended in December 31, 2014.

There is no impact of management's tax planning strategies on the Adjusted Gross DTAs and Net Admitted DTAs.

Current income taxes incurred consist of the following major components:

(1)	Current income tax:	<b>2014</b>
	Federal income taxes	\$ 297,912
	Foreign income taxes	-
	Subtotal	<u>297,912</u>
	Federal income tax on net capital gains	8,651
	Change in prior year accrual	(148,449)
	Federal and foreign income taxes incurred	<u>\$ 158,114</u>

The tax effects of temporary differences that give rise to significant portion of the deferred tax assets and deferred tax liabilities are as follows:

<b>Net admitted deferred tax asset (liability)</b>	<u><u>\$ 105,102</u></u>

There are no differences for which deferred tax liabilities are not recognized. The change in deferred tax assets is reflected as a change in capital and surplus in the accompanying statutory statements.

The valuation allowance adjustment to gross deferred tax assets as of December 31, 2014 was \$898,174. The net change in the total valuation allowance adjustments for December 31, 2014 was an increase of \$898,174. The valuation allowance adjustment at 2014 increased due to SSAP 101 being implemented by the Company as of January 1, 2014.

The Company's income tax expense and change in deferred tax assets/deferred tax liabilities differs from the amount obtained by applying the federal statutory rate of 34% to income before taxes for the following reasons:

	<b>Statutory pre- tax net income</b>	<b>Amount</b>	<b>Effective tax rate (%)</b>
Provisions computed at statutory rate	\$ 1,858,380	\$ 631,849	34.0%

**Note 11 – Income Taxes (continued)**

As of December 31, 2014, the Company did not have any unused operating loss or tax credit carryforwards to offset against future taxable income.

The following amounts of federal income taxes are available for recoupment in the event of future losses:

2014	\$	234,134
2013	\$	406,000
2012	\$	270,285

The Company's federal income tax return is not consolidated with any other entity. The Company's tax returns for the years ended in 2011 through 2013 are subject to IRS audits if requested by the IRS.

The Company is subject to state premium taxes and, accordingly, is exempt from state income taxes in a majority of the states in which the Company does business.

In June 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48), replaced by Accounting Standard Codification (ASC) 740, Income Taxes. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes (FAS 109), also replaced by Accounting Standard Codification (ASC) 740, *Income Taxes*. This interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC 740 also provides guidance on derecognition of tax benefits, classification on the balance sheet, interest and penalties, accounting in interim periods, disclosure, and transition. As of December 31, 2014 and 2013 the Company has not adopted the provisions of ASC 740 because it is not required by the accounting practices prescribed or permitted by the State of Arizona Department of Insurance. Therefore, no reserves for uncertain income tax positions have been recorded pursuant to ASC 740.

**Note 12 – Correction of Error**

The Company recorded a correction of error in the statutory financial statements for the year ended December 31, 2013 in the amount of \$94,385 to record accumulated depreciation expense on real estate investments in accordance with the requirements of *Statements of Statutory Accounting Principles (SSAP) No. 40 Real Estate Investments*. This correction of error should have been reported in the December 31, 2014 annual statement on page 3 line 31 as an aggregate write-in for other than special surplus funds.

**Note 13 – Subsequent Events**

Management has evaluated subsequent events through April 21, 2015, the date the statutory financial statements were available to be issued. No events or transactions occurred after year-end that require additional disclosure or adjustments to the statutory financial statements.

## **OTHER LEGAL AND REGULATORY INFORMATION**

**Independent Auditor's Report on Other Legal  
and Regulatory Information**

To the Board of Directors  
**American Savings Life Insurance Company:**

We have audited the statutory financial statements of **American Savings Life Insurance Company** as of and for the year ended December 31, 2014, and our report thereon dated April 21, 2015, which expressed an unmodified opinion on those statutory financial statements, appears on pages 2-3. The Schedule 1 - Selected Financial Data, Schedule 2 – Summary Investment Schedule and Schedule 3 – Investment Risks Interrogatories are presented for purposes of additional analysis and is not a required part of the statutory financial statements, but are required as other legal and regulatory information required by the National Association of Insurance Commissioners' Accounting Practices and Procedures Manual.
