Independent Auditor's Report

To the Board of Directors American Savings Life Insurance Company:

Opinions

We have audited the statutory financial statements of American Savings Life Insurance Company, which comprise the statutory statements of admitted assets, liabilities, and surplus of American Savings Life Insurance Company as of December 31, 2024 and 2023, and the related statutory statements of income and changes in surplus, and cash flow for the years then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the accompanying financial statements present fairly, in all material respects, admitted assets, liabilities, and surplus of American Savings Life Insurance Company as of December 31, 2024 and 2023, and the results of its operations and its cash flows for the years then ended, on the basis of accounting described in Note 2.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of American Savings Life Insurance Company as of December 31, 2024 and 2023, or the results of its operations or its cash flows thereof for the years then ended.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of American Savings Life Insurance Company, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 2 to the financial statements, American Savings Life Insurance Company prepared these financial statements using accounting practices prescribed or permitted by the Insurance Department of the State of Arizona, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these statutory accounting practices described in Note 2 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accounting practices prescribed or permitted by the Insurance Department of the State of Arizona. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Larson & Company 11240 South River Heights Drive, Suite 300 Salt Lake City, UT 84095 Main: (801) 313-1900 | www.larsco.com

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about American Savings Life Insurance Company's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of American Savings Life Insurance Company's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about American Savings Life Insurance Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Note 1 – Organization

American Savings Life Insurance Company (the "Company") is a registered capital stock life, health and accident insurance company authorized to conduct business in the states of Arizona, Arkansas, Iowa, Kansas, Louisiana, Missouri, Montana, Nevada, New Mexico, North Dakota, Ohio, Oklahoma, Texas, Utah, and Wisconsin. The Company is currently engaged in life insurance and annuity business. While it is customary in the insurance industry for a significant portion of income to be derived from investments in mortgage loans, securities and bank deposits, a majority of the Company's income is derived from such sources.

Company Reorganization

On February 15, 2007, American Savings Life Insurance Company purchased 325,000 shares as 100% ownership of the newly formed ASL Financial Group, Inc. for \$325,000 in cash and real estate mortgage loans. ASL Financial Group then purchased 300,000 shares as 100% ownership in the newly formed American Life Financial Corporation for \$300,000 in cash and real estate mortgage loans. American Life Financial Corporation has been formed to increase the Company's mortgage investing opportunities and ASL Financial Group is a holding company, which at some future date could serve as a holding company for both American Saving Life Insurance Company as well as American Life Financial Corporation.

Note 2 – Summary of Significant Accounting Policies

The significant accounting policies applicable to the Company's statutory financial statements are summarized below:

Basis of Presentation

The accompanying statutory financial statements have been prepared in conformity with the accounting and valuation practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and/or the Arizona Department of Insurance. The principal differences between statutory basis financial statements and those prepared on a U.S. generally accepted accounting principles (U.S. GAAP) basis as they affect the Company, are that for statutory purposes:

- Investments in real estate are reported net of related obligations, if any, rather than on a gross basis. Changes between cost and admitted asset investment amounts are credited or charged directly to unassigned surplus rather than to a separate surplus account;
- Valuation allowances, if necessary, are established for mortgage loans based on the difference between the unpaid loan balance and the estimated fair value of the underlying real estate when such loans are determined to be in default as to the scheduled payments. Under U.S. GAAP, valuation allowances would be established when the Company determined it is probable that it will be unable to collect all amounts (both principal and interest) due according to the contractual terms of the loan agreement. Such allowances are based on the present value of expected future cash flows discounted at the loan's effective interest rate or, if foreclosure is probable, on the estimated fair value of the underlying real estate, less estimated cost to sell;

Note 2 – Summary of Significant Accounting Policies (continued)

- Investments in bonds are reported at amortized cost or fair value based on their National Association of Insurance Commissioners (NAIC) rating as described below in valuation of investments, unrealized gains or losses are credited or charged directly to surplus; for U.S GAAP, such fixed maturity investments would be designated at purchase as held-tomaturity, trading, or available-for-sale. Held-to-maturity fixed investments would be reported at amortized cost, and the remaining fixed maturity investments would be reported at fair value with unrealized holding gains and losses reported in operations for those designated as trading and as a separate component of surplus for those designated as available-forsale;
- Investments in 100% owned subsidiary companies are not filed with the Securities Valuation Office so they are considered non-admitted and therefore not reported on the statutory basis;
- Certain assets designated as "nonadmitted," principally furniture and equipment, agents' debit balances, and other assets not specifically identified as an admitted asset within the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) are excluded from the accompanying statement of admitted assets, liabilities and stockholders' surplus and are charged directly to unassigned surplus. Under U.S. GAAP, such assets are included in the balance sheet;
- Policy acquisition costs incurred in connection with acquiring new business are charged to current operations rather than being deferred and amortized over the premium paying period of the policy;
- Deferred tax assets are limited to 1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse by the end of the subsequent calendar year, subject to a valuation allowance for deferred tax assets not realizable, plus 2) the lesser of the remaining gross deferred tax assets expected to be realized within one to three years of the balance sheet date or 15% of stockholders' surplus excluding any net deferred tax assets, EDP equipment and operating software, plus 3) the amount of remaining gross deferred tax assets that can be offset against existing gross deferred tax liabilities. The remaining deferred tax assets are nonadmitted. Deferred taxes do not include amounts for state income taxes, a deferred tax asset is recorded for the amount of gross deferred tax assets expected to be realized in future years, and a valuation allowance is established for deferred tax assets not realizable;
- A liability for guaranty fund and other assessments (net of certain offsets depending on state rules) is accrued after insolvency has occurred regardless of whether the assessment is based on premiums written before or after the insolvency. Under U.S. GAAP, the assessment recognized is typically accrued when premiums are written because the assessment generally is based on prospective premium writings;
- Cash and short-term investments in the statements of cash flow represent cash balances and investments with initial maturities of one year or less. Under U.S. GAAP, the corresponding caption of cash and cash equivalents includes cash balances and investments with initial maturities of three months or less;

Note 2 – Summary of Significant Accounting Policies (continued)

- Interest rate related realized capital gains (net of losses) are reported as a liability (Interest Maintenance Reserve) and amortized to the maturity date of the instrument sold or called. Under U.S. GAAP, the realized capital gains (net of losses) are recorded in the income statement in the year incurred instead of being amortized over the remaining life of the instrument sold or called;
- An Asset Valuation Reserve is set up to establish a reserve to offset potential credit-related investment losses on all invested asset categories. Under U.S. GAAP such losses are recognized in the income statement when incurred;
- Policy reserves are based on statutory mortality and interest requirements and without consideration of withdrawals, whereas U.S. GAAP reserves are based on Company experience for mortality, interest and withdrawals;
- On a statutory basis, the Company does not report comprehensive income, as required by FASB codification ASC 220, Comprehensive Income;

The effects of the foregoing variances from U.S. GAAP on the accompanying statutory basis financial statements have not been determined, but are presumed to be material.

The Insurance Department of the State of Arizona recognizes only statutory accounting practices prescribed or permitted by the State of Arizona for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Arizona Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Arizona.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of one year or less at the time of purchase to be cash equivalents.

Restricted Securities

In accordance with the State of Arizona, Arkansas, Nevada, and New Mexico Insurance Regulations, long-term bonds with an aggregate value of \$1,462,486 and \$341,531 in 2024 and 2023, respectively, were assigned, as a security deposit, for the benefit of the State Treasurer of each of the four states.

Note 2 – Summary of Significant Accounting Policies (continued)

Restricted Securities (continued)

Restricted bonds at year end are summarized as follows:

State	2024	2023
Arizona (AZ)	\$ 665,398	\$ 341,531
Arkansas (AR)	130,715	-
Nevada (NV)	220,330	-
New Mexico (NM)	 446,043	-
	\$ 1,462,486	\$ 341,531

Investments

Bonds, which management generally intends to hold until maturity (unless market conditions warrant the realization of capital appreciation to maximize overall yields), are carried at amortized cost. Common stock and mutual funds are generally required to be reported at the market value. Mortgage loans are carried at the aggregate unpaid balance, real estate held for sale is carried at lower of cost or market less accumulated depreciation. Investments in LLCs and partnership interests are carried at the underlying audited income tax basis equity of the investee and are included with other invested assets in the financial statements.

Valuations of Investments

Investments are stated at valuation rates prescribed by, or deemed acceptable to, the NAIC. Bonds not backed by other loans are stated at amortized cost using the interest method, and equity security values approximate fair values, unless otherwise prescribed by the NAIC. Under NAIC guidelines, when market value rates are not available for bonds, fair value rates are determined by the Company. Realized gains or losses on the sale of bonds are determined based on the specific amortized cost of the investments sold and are included in net income. Realized gains or losses on the sale of equity securities are based on the specific-identification method and are included in net income. Unrealized gains and losses from revaluation of equity securities are reflected in stockholders' surplus. Mortgage loans on real estate, real estate contracts for sale and policy loans, are stated at the aggregate unpaid principal balances. The Company reviews its investment portfolio for reductions in fair value below cost that, in the opinion of the Company, represent a permanent or other-than temporary impairment (OTTI). Declines in fair value of investments deemed to be OTTI or permanent are accounted for as a realized loss. During the years ended December 31, 2024 and 2023, the Company recognized OTTIs on properties held for sale, realizing a loss of \$0 and \$0, respectively.

Note 2 – Summary of Significant Accounting Policies (continued)

Furniture and Equipment

The Company has a policy of expensing all data processing and furniture and equipment related costs that are within the annual limits as established by IRC Section 179 income tax deduction. Maintenance and repairs that do not materially extend the useful lives are charged to earnings as incurred.

Depreciation of data processing equipment and furniture and fixtures is provided over the estimated useful lives of the assets on the straight-line method. The useful lives for data processing equipment are three years. The useful lives for furniture and fixtures are seven to ten years. Depreciation expense for furniture and fixtures for the years ended December 31, 2024 and 2023 totaled \$ 22,376 and \$16,146, respectively.

Line of Credit

As of December 31, 2024 and 2023, the Company has an unsecured line-of-credit agreement with a bank, which enables the Company to borrow up to \$10,000,000 and \$6,000,000, respectively, for emergency liquidity and for short-term funding of investments, respectively. As of December 31, 2024 and 2023, the interest rate is a variable interest rate which is 0.050 percentage points under the Wall Street Journal Prime Rate with an interest rate floor of 6.50% and 6.50%, respectively. Borrowings under the line-of-credit agreement as of December 31, 2024 and 2023 were \$0, and \$3,000,000, respectively.

Aggregate Policy Reserves

Unless specifically required by contract, the Company waives deferred fractional premiums subsequent to the death of an insured. Fractional premiums paid beyond the date of death are refunded only when paid in advance beyond a policy anniversary. No surrender value is promised in excess of the reserve as legally computed. Substandard policies are valued at the equal reserve for the rated age (an age greater than the actual age) or where substandard extra premium is required, at the legal reserve plus one-half the annual substandard premium. No policies have a gross premium less than required net premiums. Tabular interest, tabular less actual reserves released, tabular cost and tabular interest on fund not involving life contingencies are determined by formulas outlined in the annual statement instructions. For the determination of tabular Interest on funds not involving life for each valuation rate of interest, the tabular interest is calculated as one hundredth of the product of such valuation rate of interest times the mean of the amount of funds subject to such valuation rate of interest held at the beginning and end of the year of valuation. The interest rates range from 2.75% - 5.5%.

Income Taxes

The Company accounts for income taxes in accordance with SSAP 101, *Income Taxes*. Please see Note 11 for additional information.

Note 2 – Summary of Significant Accounting Policies (continued)

Basis of Premium Revenue Recognition

Premiums on life contracts are recognized as revenue when due on an annualized premium basis. Premiums on annuities are recognized as revenue when collected in accordance with *Statements* of *Statutory Accounting Principles No. 50 – Classifications and Definitions of Contracts in Force.*

The liability for policy claims is based on estimates of the costs on individual claims reported plus estimated claims incurred but unreported prior to December 31, 2024.

Reinsurance

The Company had no agreements with nonaffiliated reinsurers or reinsured policies during the period covered by this report.

Estimates

The preparation of these statutory financial statements in conformity with the accounting and valuation practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and/or the Arizona Department of Insurance requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the statutory financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist of temporary cash investments, fixed maturity securities and mortgage loans.

Note 3 – Cash and Investments

The Company has maintained various accounts at several banks with amounts not exceeding \$250,000. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$250,000.

The money market funds utilized by the Company invest in short-term U.S. government and commercial paper securities. Cash on demand deposits at times may exceed the federally insured limits of \$250,000 set by the Federal Deposit Insurance Corporation ("FDIC"). The Company has not experienced any losses relating to these accounts and does not believe it is exposed to any significant credit risks relating to these accounts.

Cash and short-term investments consist of the following:

Mortgage Loans

Mortgage loans consist of commercial and consumer loans collateralized by real estate. The Company's lending policies are to loan up to 65% of appraised values at interest rates ranging from 7.00% or more and terms ranging from 1 to 15 years. The Company has a concentration of mortgage loans in central Arizona.

The Company will establish a valuation allowance for loans where it is probable that all amounts due will be uncollectable. This allowance is comprised of the recorded value of the loan less the fair value of the collateral and consideration of high risk loans. An allowance was not considered necessary for the years ended December 31, 2024 and 2023.

Note 3 – Cash and Investments (Continued)

Mortgage Loans (continued)

The Company defines subprime loans as loans with an interest rate above prime and loans with a quality rating lower than CM2, the high-quality commercial loan rating. The Company does not lend above 75% loan to value using this buffer to reduce exposure to loss due to changes in asset value. As of December 31, 2024, the company had \$76,839,724 high-quality commercial loans and \$9,488,317 medium to low quality commercial loans, and a 1% share of the \$88,674,266 total mortgage loan balance was in the process of foreclosure. The subprime mortgages in good standing were updated based on the Company's definition of subprime loans and the 2023 presentation has been updated accordingly.

All amounts held in subprime mortgage loans as of December 31, 2024 are as follows:

Sub prime mortgage loans

	В	Book Value		air Value	Appraised Value	
Subprime mortgages in process of foreclosure	\$	1,204,497	\$	1,204,497	\$	2,875,000

Real Estate

In May 2006, the Company entered into a real estate investment joint venture with Boa Sorte, LLC (The Cardon Group) for the purchase of approximately 4,700 acres near Holbrook, AZ with a current book value of \$986,035. In 1974, the Company acquired property in Sunvalley, AZ as an investment property with a current book value of \$90,150. A REO in Longview, TX was foreclosed by the Company in June 2016 with a current book value of \$10,000. Because it was last appraised over five years ago it becomes non-admitted under the statutory guideline. These investments are non-admitted assets with a total current book value of \$1,086,184 and therefore, are not included with the Company's admitted assets in the accompanying statutory financial statements.

During 2024, the Company sold none of the property. During 2023, the Company sold one property acquired through foreclosure, reporting a gain of \$90,270.

Properties

Properties occupied by the Company consist of a portion of the building located at 935 E. Main Street, Mesa AZ. The cost of the building and improvements is depreciated over the estimated useful life of the building (39 years). Depreciation is computed on the straight-line method for statutory purposes. In accordance with Statements of *Statutory Accounting Principles No. 40*, properties 50% occupied by the reporting entity, including common areas, will be reported as property occupied by the company.

The following is a summary of properties occupied by the Company:

Net Investment Income

Net investment income is primarily made up of mortgage loan interest received and accrued and interest and dividends received or accrued on bonds. It also includes amortization of any purchase premium or discount using the interest method, adjusted prospectively for any change in estimated yield-to-maturity. Net investment income is reduced by direct and allocated investment expenses.

The following summarizes the components of net investment income at year end:

	Decem	ber	31

Fair Value Measurement

Investments are being disclosed utilizing an established framework for measuring fair value, and an established fair value hierarchy which prioritizes valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability, or, in the absence of a principal market, the most advantageous market.

Valuation techniques that are consistent with the market, income, or cost approach, are used to measure fair value.

Note 3 - Cash and Investments (continued)

The fair value hierarchy prioritizes valuation techniques used to measure fair value into three broad levels:

- **Level 1 investments** use quoted prices in active markets for identical assets the entity has the ability to access.
- Level 2 investments use inputs other than quoted prices included within level 1 that are observable for the asset, either directly or indirectly.
- Level 3 investments have no observable values for the assets and rely on management's own assumptions that market participants would use in pricing the asset. The entity has no such investments.

The following table presents the entity's fair value hierarchy for those investments measured at fair value on a recurring basis as of December 31:

Management uses a market approach to determine the fair value of mortgage loans and properties held for sale. Loans are adjusted for changes in the market value of the property collateralized based on local market indices. Property held for sale is adjusted to the most recent appraisal performed. The cost approach is used to determine the fair value of properties occupied by the Company and the property contract loans.

On a quarterly basis, the Company reviews its investment portfolio for securities in an unrealized loss position for other-than-temporary impairment. This review for potential impairment is performed on a specific identification basis and requires significant management judgment related to a number of qualitative and quantitative factors including the severity of the impairment, the duration of the impairment, recent trends and expected market performance. Management believes that the Company's unrealized losses on individual securities at December 31, 2024 and 2023, respectively, represent a temporary decline in market value.

Note 4 – Reserve for Life Policies and Contracts

The Company accrues liabilities for unpaid claims on its life insurance policies, estimated incurred but unrecorded claims and estimated cost of future claims. The reserve reflects the liability for aggregate reserve amounts which, with additions from premiums to be received and with interest compounded annually at an interest assumption between 2.75% and 5.5% are calculated to be sufficient to meet policy obligations as they mature.

Note 4 – Reserve for Life Policies and Contracts (continued)

Note 5 – Guaranteed Investment Contracts

Guaranteed Interest Contracts are amounts held on behalf of outside parties. Interest is paid yearly at a rate equal to Federal Reserve 6-month treasury constant maturity yield and is updated each month with a guaranteed minimum rate of 2.00%. Guaranteed investment contracts are considered a level 3 financial instrument under the fair value hierarchy referred to in Note 3.

Management uses a cost approach to report the fair value of these contracts and the amounts are not adjusted based on any additional criteria.

Note 6 – Capital and Surplus

State of Arizona insurance regulations require the Company to keep a minimum capital of \$300,000 and a minimum free surplus of \$150,000. At December 31, 2024 and 2023, the Company had capital amounts of \$934,154 and \$933,280 respectively and free surplus of \$14,710,640 and \$14,665,175, respectively. Free surplus was reduced by the \$8,543,806 and \$8,357,361 cost of treasury stock in 2024 and 2023, respectively. On February 8, 2011 the Board of Directors authorized the purchase of up to 300,000 shares of Company stock at 90% of the most recent equity value. The equity value is prepared monthly using U.S. GAAP standards and adjusted for any accrued dividends payable.

During 2024, treasury stock increased by the purchase of 42,556 shares of capital stock at prices ranging from \$4.23 to \$4.42 per share. During 2023, treasury stock increased by the purchase of 36,264 shares of capital stock at prices ranging from \$4.17 to \$4.27 per share.

The portion of surplus represented or reduced by each item below is as follows:

Net unrealized capital gains or (losses)	\$ (863,144)
Nonadmitted asset values	\$ (1,532,316)
Asset valuation reserve	\$ (1,965,220)
Net deferred income taxes	\$ 1,016,998

Note 7 – Participating Insurance Policies

The allocation of dividends to participating policy owners is based on actuarial mortality rates with consideration for investment yields (which are subject to periodic review), issue ages, policy durations and premium charges. The mortality rates correspond with rates assumed in the calculation of the premium charges. Participating business comprised approximately 16% of total life insurance in force at December 31, 2024, and 15% at December 31, 2023.

Note 8 – Claims and Contingencies

The Company has various other legal proceedings and claims pending that are common to its operations. While it is not possible to determine the ultimate outcome of these matters, it is the opinion of management that they will not result in monetary damages that in the aggregate would be material to the business or operations of the Company.

Note 9 – Related Parties

No related party transactions involving members of Company management and the Board of Directors have occurred during the years ended December 31, 2024 and 2023, other than ordinary compensation, expense reimbursements and similar items incurred in the ordinary course of business, except as follows:

- a) Byron F. Allen is the President of the Company and also the Administrator of the Company's Profit Sharing Plan detailed in Note 10.
- b) E. Paul Whetten is the Executive Vice President of the Company and also the Trustee of the Company's Profit Sharing Plan detailed in Note 10.
- c) A member of the Board of Directors, Heber E. Allen, provided additional consulting services for the Company during the year, for which he received additional compensation.

There is an insignificant relationship between policyholders who are also stockholders and members of Company management and the Board of Directors. Life insurance premiums paid by Company officers and directors totaled 1.30% and 0.31% of total premiums paid in 2024 and 2023, respectively. Company officers and directors also owned 0.23% and 0.23% of total policy face value in 2024 and 2023, respectively.

The Company also entered into various transactions with its wholly owned subsidiary, American Life Financial Corporation (ALF) relating to shared administration costs. During 2024 and 2023, ALF personnel provided labor to the Company in the amount of \$65,401 and \$69,970 respectively. The Company personnel provided labor to ALF under the agreement in the amount of \$5,820 and \$5,530 for the years ended December 31, 2024 and 2023, respectively. The Company paid ALF for mortgage loan origination and underwriting services provided to the Company in the amount of \$965,825 and \$748,885 during the years ended December 31, 2024 and 2023, respectively. As of December 31, 2024 and 2023, there was a net payable due to ALF of \$140,734 and \$0, respectively.

The Company pays the full amount of expenses for office space and other office support expenses. ALF reimburses the Company for a portion of those expenses. The total expenses reimbursed by ALF for office space and other support expenses were \$17,460 and \$19,410 for both 2024 and 2023, respectively.

Note 10 – Employee Benefit Plans

In 1993 the Company began to sponsor a qualified profit sharing plan available to full-time employees who meet the plan's eligibility requirements. The terms of the plan call for annual discretionary contributions by the Company as determined by the board. The plan contribution was \$117,537 for 2024 and \$78,112 for 2023.

Note 10 – Employee Benefit Plans (Continued)

The Company has an employee stock benefit compensation plan, available to employees and directors. The terms of the plan allow employees or directors to specify the greater of \$5,000 or up to 50% of their total compensation for shares of company stock. The allocation price of the stock is 100% of the non-audited generally accepted accounting principles book value for the month preceding enrollment, adjusted for dividends declared but unpaid. Employee may adjust the amount of their payroll allocated to stock compensation every six months. Stock is issued in full shares only. After the stock is issued, the stockholder is prohibited from selling the stock for two years. There are no vesting requirements or minimum requisite service periods before stocks are issued. As such, compensation is expensed as service is performed.

During 2024 and 2023, 8,742 and 8,656 shares, respectively, of Company common stock were issued as stock compensation expense under the plan for a total of \$55,196 and \$39,830, respectively. The average price utilized for the determination of the value of such stock issued for compensation for the years ended December 31, 2024 and 2023 was \$4.77 and \$4.60, respectively. As of December 31, 2024 and 2023, \$10,215 and \$22,790 of employee and directors compensation had been set aside for stock issuance as accrued liabilities based on the enrollment stock price of \$4.818 and \$4.70, respectively.

Note 11 – Income Taxes

The Company has an effective income tax rate substantially different from the statutory rate applied to net income for the years ended December 31, 2024 and 2023.

The following is a summary of the differences between statutory pre-tax net income and taxable income:

Note 11 - Income Taxes (continued)

As of December 31, 2024, the Company did not have any unused operating loss carryforwards and \$0 in AMT tax credit carryforwards to offset against future taxable income.

The following amounts of federal income taxes are available for recoupment in the event of future losses:

2024	\$ 642,203
2023	\$ 565,425
2022	\$ 458,744

The Company's federal income tax return is not consolidated with any other entity. The Company's tax returns are subject to IRS audits if requested by the IRS, generally for three years after the return is filed. The Company is subject to state premium taxes and, accordingly, is exempt from state income taxes in a majority of the states in which the Company does business.

As of December 31, 2024 and 2023, the Company has not adopted the provisions of Accounting Standard Codification (ASC) 740, *Income Taxes* because it is not required by the accounting practices prescribed or permitted by the State of Arizona Department of Insurance. Therefore, no reserves for uncertain income tax positions have been recorded pursuant to ASC 740.
